## RARE COLLECTION OF

While it was known that J. P. Hale Jenkins, of Norristown, was a numismatist, the wealth of rare coins he had in his possession was never imagined by the people of the town, unless they enjoyed his confidence. Henry Chapman has cataloged the collection and the fact that nearly 50 pages are required to describe them briefly, will give an idea of the extent of the coins the late Norristown lawyer had.

Among the very rare coins is a 1792 half dollar, struck in copper. The catalog says of it. "G. Washington, President I, 1792. Bust in costume L. R. United States of America, heraldic eagle with shield on breast, olive branch and arrows in talons, 15 stars about his head. Extremely fine. Steel color. Very rare. Highly interesting historical ly and valuable."

Other rarities include: 1791 cent, two cents, 1836; 1838 half dollar; 1849 three-cent pieces; cents of various years as well as other coins. The "very rare" and "rare" run into the hundreds. There are also some good gold pieces, \$10, \$5 and \$1; a Confederate half dollar; silver, restrike, is listed as very rare.

Then there is a dollar bill of the Bank of Montgomery county, Norristown, of 1865, and a \$10 bill of 1854 of same bank, and a Roosevelt inauguration bust medal in aluminum, said to be extremely rare in 1865 metal.

## TERMS OF SALE

---

This sale is made for cash on delivery of the goods, which may be obtained at the termination of each day's sale, or at the end of the sale on the last day.

The highest bidder to be the buyer.

Should a dispute arise and the disputant has a voucher and is willing to advance on the price at which the lot was stricken off, then the said lot to be put up again and sold to the highest bidder. This does not apply where a bidder has not made any offer prior to said item being knocked down—then the auctioneer will use his judgment as to the justice of the claim of the contesting bidder, and his decision shall be final.

The auctioneer reserves the right to refuse the bid of an individual if he declines to make, on request, a cash deposit.

No lot is separated. All are sold subject to the catalogue description and by the catalogue numbers. Should any lot become misplaced, the buyer does not acquire any right in it if it is stricken off without the mistake being discovered, and such a lot must be returned to the auctioneers. If any lot cannot be delivered from any cause whatsoever (though the cataloguer will make every effort to deliver), the auctioneers and cataloguer are only responsible for its value as sold and determined by this sale.

The auctioneers and cataloguer reserve the right to bid on their own account and for their clients who have favored them with commissions.

Every item is guaranteed genuine, and this holds good indefinitely.

Each lot sold so much per piece, except the proof sets.

No coins shown during the progress of the sale unless to oblige a special request. Any one wishing to see a lot will be given every opportunity to do so if possible.

Only the lots as advertised for that day's sale exhibited or sold on that date.

Every lot is sold without reserve, and changes owners on being stricken off.

Collectors are requested to carefully examine the coins during the exhibition at the auction rooms on day of sale from 9 to 12 o'clock.

To those who have not attended a coin sale, permit me to suggest that you mark in your catalogue during the exhibition the price you are willing to pay for the various lots, as there is no time for reflection during the progress of the sale, which passes along at the rate of about 200 to 250 lots per hour.

I will carefully and faithfully execute any bids entrusted to my care, charging a fee of 5 per cent. on the amount purchased, no charge being made for services rendered unless the lot was purchased.

The cataloguer and auctioneers will not be responsible for any errors made by bidders, so please carefully compare your bid sheet with the catalogue and make certain you have the numbers correspond on the lots being bid for. Nearly every sale develops some mistake; quite often the bid sheets arrive unsigned, with no way to determine the identity of the bidder.

Send in your bids as quickly after you receive the catalogue as you can, as it requires much time to get them entered, and just before a sale like this my time is required in various directions.

Daniel R. Kennedy, of New York City, will cry the sale, which I know will be a satisfaction to every one. He is so well known that he scarcely needs an introduction.

Thanking my many friends and customers for their liberal support and loyalty in the past, and striving to merit a continuance of the same, I remain,

Sincerely,

HENRY CHAPMAN,

Numismatist,
